How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is 1 + 6 = 7, and for the 25th it is 2 + 5 = 7. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

> Women born on the **1st** of the month have soul number **1**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, what gives you strength and what depletes you fastest when things are hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body you rely on most, and which one is the first to give you a signal when things become too much.

The five numbers of your date of birth

The soul number is the first of five numbers hidden in your date of birth. The others show what you carry as a lesson, what comes easily to you, what you are moving toward and along which path.

YOUR SOUL NUMBER

1 · Soul Body

Does it happen that you know something before you can explain why? You walk into a flat that looks perfect on paper and immediately feel it is not for you. You meet someone and within a few minutes you know you will understand each other. That feeling, which arrives before you have thought it through, comes from your Soul Body.

In Kundalini Yoga the first body is the Soul Body. From it comes the feeling of what truly matters to you, what you want and what you do not want. When the Soul Body is strong, decisions come more easily, small things bring you joy and you do what you really want. When it is depleted, your head takes over, so you think a lot and feel very little. The key of this number is heart before head: first you feel what you want, then you use reason to check how to do it.

YOUR QUALITIES

You have strong intuition. You often feel what is right for you before you can explain it, and when you follow that feeling, you later see that it was right.

You also have the gift of honesty. People sense that there is no pretending with you, so they open up more easily. When you honestly say what you think and feel, people listen to you more than they would to a perfect explanation.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

The biggest challenge of this number is to trust your feeling, even when you cannot explain it.

When the Soul Body is depleted, you turn the same decision over for days: you write lists of pros and cons, ask your friends, read, and yet deep down you already know the answer. You just do not trust it, because you cannot prove it. Then you easily let others decide for you, and you end up on a trip, in a job or at a dinner you did not choose. Afterwards you wonder why you did not say right away what you really wanted.

How to recognize your Soul Body

WHEN IT IS STRONG

- You are offered a job that looks great on paper, and you turn it down because you feel it is not for you.
- In a restaurant you order what you feel like eating, without looking at what others are having.
- When something does not suit you, you say so right away, calmly and without a long explanation.
- You meet someone new and trust your first impression instead of questioning it straight away.

WHEN IT IS DEPLETED

- You turn the same decision over for days and ask everyone around you what they would do.
- You agree to a plan that does not suit you, just to avoid an argument.
- On the outside everything works, yet in the evening you feel that something is missing.
- When someone asks what you want, you answer: whatever you prefer.

ONE PART OF YOU

This is one important part of you

Your soul number shows your relationship with yourself. But it is only one of the five numbers in your date of birth, and it leaves some questions open:

> *Why do you sometimes decide in a second, and other times turn the same decision over for weeks?*
>
> *Why do you adapt to others, even when you know exactly what you want?*
>
> *Why is a certain theme coming up for you right now, and not earlier?*

PERSONAL MAP

How your parts work together

One number can explain one part of you. But the most interesting part begins when you see how your numbers fit together: where one strength supports you, where another creates tension, and why certain themes are coming up for you right now, and not earlier. That is what you receive in the full Personal Map, together with the seven-year cycle you are in right now and the energy of your personal year.
