How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is 1 + 6 = 7, and for the 25th it is 2 + 5 = 7. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

Women born on the **3rd, 12th, 21st or 30th** of the month have soul number **3**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, what gives you strength and what depletes you fastest when things are hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body you rely on most, and which one is the first to give you a signal when things become too much.

Numbers and bodies

1	Soul Body	7	Auric Body
2	Negative Mind	8	Pranic Body
3	**Positive Mind**	9	Subtle Body
4	Neutral Mind	10	Radiant Body
5	Physical Body	11	Eleventh Body
6	Arcline		

The five numbers of your date of birth

The soul number is the first of five numbers hidden in your date of birth. The others show what you carry as a lesson, what comes easily to you, what you are moving toward and along which path.

YOUR SOUL NUMBER

3 · Positive Mind

Maybe you recognize yourself in moments when you are the first to dance at a birthday party, when you say in a hard moment that everything will work out, or when you get excited about a new idea before you have heard it to the end. When you arrive at a get-together, people laugh more and relax more easily. That is your Positive Mind.

In Kundalini Yoga the third body is the Positive Mind. It is the mind that sees possibilities, notices what already works and asks how something can be done. It gives you drive, humor and the courage to begin. When it is strong, you easily see a way out and encourage both yourself and others. When it is depleted, it is harder for you to smile, and even small tasks feel heavy. The key of this number is equality: you see every person as your equal, whether you are talking to a director or to the woman at the bakery.

YOUR QUALITIES

You know how to encourage. When a friend thinks she will not make it, you show her how she can start. When everyone is worn out, you find something that makes them all laugh. Your faith in people is often exactly what helps them believe in themselves.

You also have the courage to begin. While others are still thinking, you have often already taken the first step, and people open up to you because they feel you do not look down on them.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

The biggest challenge of this number is to admit to yourself and to others when you are not okay.

When the Positive Mind is depleted, you say yes to everything. You sign up for three courses at once, promise help to everyone, and in the end there is no time left for yourself. At work and with friends you keep smiling, even when you do not feel like it. At home you then have no energy for anything, and you tell no one how you really are.

How to recognize your Positive Mind

WHEN IT IS STRONG

- A project at work goes wrong, and you already have an idea of how to solve it.
- Before you agree to a new commitment, you check your calendar.
- A friend doubts herself before a job interview, you encourage her, and she leaves calmer.
- When you have a bad day, you say so openly and do not pretend everything is fine.

WHEN IT IS DEPLETED

- You promise help to your sister, a friend and a colleague for the same weekend, and you never get to rest.
- You start new things with enthusiasm and leave half of them unfinished.
- At a party you laugh, and at home you feel empty.
- One small mistake at work ruins your whole day.

ONE PART OF YOU

This is one important part of you

Your soul number shows your relationship with yourself. But it is only one of the five numbers in your date of birth, and it leaves some questions open:

> *Why do you encourage everyone around you, while no one knows when things are hard for you?*
>
> *Why do you start new things with so much enthusiasm, and half of them stay unfinished?*
>
> *Why is a certain theme coming up for you right now, and not earlier?*

PERSONAL MAP

How your parts work together

One number can explain one part of you. But the most interesting part begins when you see how your numbers fit together: where one strength supports you, where another creates tension, and why certain themes are coming up for you right now, and not earlier. That is what you receive in the full Personal Map, together with the seven-year cycle you are in right now and the energy of your personal year.
