How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is 1 + 6 = 7, and for the 25th it is 2 + 5 = 7. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

Women born on the **5th, 14th or 23rd** of the month have soul number **5**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, what gives you strength and what depletes you fastest when things are hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body you rely on most, and which one is the first to give you a signal when things become too much.

2	Negative Mind	8	Pranic Body
3	Positive Mind	9	Subtle Body
4	Neutral Mind	10	Radiant Body
5	**Physical Body**	11	Eleventh Body

The five numbers of your date of birth

The soul number is the first of five numbers hidden in your date of birth. The others show what you carry as a lesson, what comes easily to you, what you are moving toward and along which path.

YOUR SOUL NUMBER

5 · Physical Body

Maybe you notice that you learn best by doing. You do not read the recipe to the end, you start and figure it out along the way. When someone explains something to you, real understanding comes only when you try it with your own hands. And once you have mastered something, you can show it to someone else so that it is immediately clear to them.

In Kundalini Yoga the fifth body is the Physical Body. Through it plans become actions: what you imagine, you also carry out with your body. Five is the number of balance between work, rest and play, and the number of the teacher. When the Physical Body is strong, you have energy and patience for yourself and for others. When it is depleted, your body shows tiredness first, and only then does your head notice that it was too much. The key of this number is: be balanced and teach. What you have lived through, you know how to pass on to others.

YOUR QUALITIES

You know how to turn an idea into action. While others talk about plans, you have often already taken the first concrete step, and people know that whatever you take on will get done.

You have a talent for explaining. Colleagues ask you when they do not understand something, and friends ask for your advice because you give it clearly and practically. Many women with this number are natural teachers, even when they do not call themselves that.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

The biggest challenge of this number is to choose to rest before your body forces you to rest.

When the Physical Body is depleted, you work all day, then come home and keep tidying. You easily skip your body's signals, so you stop only when you cannot go on. Then you snap more easily over small things and feel sorry afterwards. And when you see that others have time for themselves, you ask yourself: when will I slow down a little too?

How to recognize your Physical Body

WHEN IT IS STRONG

- After work you leave your tasks for tomorrow and go for a walk or to a workout.
- You explain a new program to a colleague in ten minutes, and she carries on by herself right away.
- You go to bed at the same time every night and wake up rested.
- When someone offers to help with a move or with cooking, you accept.

WHEN IT IS DEPLETED

- You eat lunch standing up, between two tasks.
- You postpone rest until the weekend, and then spend the weekend tidying the flat.
- You snap at your partner or a friend over a small thing, and feel sorry afterwards.
- You lie on the sofa while making a list in your head of everything you still have to do.

ONE PART OF YOU

This is one important part of you

Your soul number shows your relationship with yourself. But it is only one of the five numbers in your date of birth, and it leaves some questions open:

> *Why is it so easy for you to explain to others how to take care of themselves, while you do not give yourself even an hour of rest?*
>
> *Why do you feel guilty when you rest, even though you know how much you work?*
>
> *Why is a certain theme coming up for you right now, and not earlier?*

PERSONAL MAP

How your parts work together

One number can explain one part of you. But the most interesting part begins when you see how your numbers fit together: where one strength supports you, where another creates tension, and why certain themes are coming up for you right now, and not earlier. That is what you receive in the full Personal Map, together with the seven-year cycle you are in right now and the energy of your personal year.
