How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is 1 + 6 = 7, and for the 25th it is 2 + 5 = 7. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

Women born on the **6th, 15th or 24th** of the month have soul number **6**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, what gives you strength and what depletes you fastest when things are hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body you rely on most, and which one is the first to give you a signal when things become too much.

Numbers and bodies

1	Soul Body	7	Auric Body
2	Negative Mind	8	Pranic Body
3	Positive Mind	9	Subtle Body
4	Neutral Mind	10	Radiant Body
5	Physical Body	11	Eleventh Body

The five numbers of your date of birth

The soul number is the first of five numbers hidden in your date of birth. The others show what you carry as a lesson, what comes easily to you, what you are moving toward and along which path.

YOUR SOUL NUMBER

6 · Arcline

Does it happen that you think of someone and at that very moment they get in touch? That you know how something will end before it begins? That you sense the mood in a room as soon as you walk in, before anyone says a word? That is your Arcline.

In Kundalini Yoga the sixth body is the Arcline, also called the halo body, a bright arc from ear to ear across the forehead, like the halo in old paintings. It is connected with intuition, focus and intention. Through it you sense what someone is thinking before they say it, and you stay focused on your goal even when you have many obligations. When it is strong, your thoughts are clear and you finish what you start. When it is depleted, you easily lose focus, and other people's feelings pass onto you more easily. The key of this number is a person in prayer: when you are focused on what you want, it is easier to see it through to the end.

YOUR QUALITIES

You have strong intuition. You often know what someone feels before they tell you, and you read a situation faster than you could explain how.

When you devote yourself to something, you can stay with one thing for hours and bring it to the end. Your words carry weight: when you tell someone that everything will be fine, that person really calms down.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

The biggest challenge of this number is to stay with what you have started, even on days when you do not feel like it.

When the Arcline is depleted, you start something with great enthusiasm, a new habit, a course or a project, and after a few bad days you give up. You also easily absorb other people's feelings: after talking to someone who is sad, you carry that sadness for a long time and do not notice that it is not yours. And one worry that keeps turning in your head can easily ruin your whole day.

How to recognize your Arcline

WHEN IT IS STRONG

- You sign up for a yoga or language course and go regularly until the end, without any problems.
- You think of a friend and call her, and she tells you she needed to talk at exactly that moment.
- You sit down to work and stay with one task for hours, without scrolling.
- Your partner comes home irritable, and you stay calm and do not let that irritation pass onto you.

WHEN IT IS DEPLETED

- In January you start going to the gym, and by February you already find reasons not to go.
- At work you start ten things and finish none of them.
- After talking to a sad friend, you feel sad all day too.
- You wake up with one worry, and it stays with you until the evening.

ONE PART OF YOU

This is one important part of you

Your soul number shows your relationship with yourself. But it is only one of the five numbers in your date of birth, and it leaves some questions open:

> *Why do you sense so easily how others feel, and afterwards you do not know whether the sadness is yours or theirs?*
>
> *Why do you start something with so much enthusiasm, and give up a few weeks later?*
>
> *Why is a certain theme coming up for you right now, and not earlier?*

PERSONAL MAP

How your parts work together

One number can explain one part of you. But the most interesting part begins when you see how your numbers fit together: where one strength supports you, where another creates tension, and why certain themes are coming up for you right now, and not earlier. That is what you receive in the full Personal Map, together with the seven-year cycle you are in right now and the energy of your personal year.
