How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is 1 + 6 = 7, and for the 25th it is 2 + 5 = 7. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

Women born on the **8th, 17th or 26th** of the month have soul number **8**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, what gives you strength and what depletes you fastest when things are hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body you rely on most, and which one is the first to give you a signal when things become too much.

Numbers and bodies

1	Soul Body	7	Auric Body
2	Negative Mind	**8**	**Pranic Body**
3	Positive Mind	9	Subtle Body
4	Neutral Mind	10	Radiant Body
5	Physical Body	11	Eleventh Body
6	Arcline		

The five numbers of your date of birth

The soul number is the first of five numbers hidden in your date of birth. The others show what you carry as a lesson, what comes easily to you, what you are moving toward and along which path.

YOUR SOUL NUMBER

8 · Pranic Body

Does it happen that you get going as soon as you decide something? That you have energy for three, and then suddenly you need a whole day to recover? That in the morning you cannot get going before your first coffee? All of this speaks about your Pranic Body.

In Kundalini Yoga the eighth body is the Pranic Body, the body of the life force we take in with the breath. Prana is the energy that moves everything in you, from your thoughts to your steps, and every breath renews it. Eight is the number of fearlessness and life force. When the Pranic Body is strong, you have the energy, courage and will to get both yourself and others moving. When it is depleted, your energy comes in bursts: one day you have strength for everything, the next for nothing. The key of this number is from finite to infinite: your strength does not have to depend on coffee, sleep or mood, because it is renewed with every deep breath.

YOUR QUALITIES

You have the strength to get yourself and others moving. When something needs to be done, you are the first to roll up your sleeves. Your energy is contagious, and many people feel more alive and braver around you.

You also have a natural ability to recover. After hard times and disappointments you get back on your feet faster than others expect, and in a crisis you stay brave while others panic.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

The biggest challenge of this number is to renew your energy in time, not only once you have run out of it.

When the Pranic Body is depleted, you start the day at full speed and go from task to task, and in the evening you have no strength left. Then you reach for something from outside to keep you going: another coffee, something sweet or scrolling. You also easily take control of everything around you, because when you hold everything in your hands, nothing can surprise you. And that is exactly what drains you the most.

How to recognize your Pranic Body

WHEN IT IS STRONG

- In the morning you get up and start your day without coffee and without your phone.
- Chaos breaks out at work, and you stay calm and know what needs to be done first.
- You hand part of a project to a colleague and do not check on her after every step.
- After a hard week you recover in one weekend.

WHEN IT IS DEPLETED

- By noon you have had your third coffee, and you still feel sleepy.
- In the afternoon you reach for something sweet, just to make it to the end of the working day.
- You make all the plans for family and friends yourself, because you think no one else will do it right.
- You are on the move all day, and in the evening you drop onto the sofa and cannot move.

ONE PART OF YOU

This is one important part of you

Your soul number shows your relationship with yourself. But it is only one of the five numbers in your date of birth, and it leaves some questions open:

> *Why do you have the strength to get everything around you moving, and then suddenly have no energy even for yourself?*
>
> *Why is it so hard for you to let others carry their part, even though you know it drains you?*
>
> *Why is a certain theme coming up for you right now, and not earlier?*

PERSONAL MAP

How your parts work together

One number can explain one part of you. But the most interesting part begins when you see how your numbers fit together: where one strength supports you, where another creates tension, and why certain themes are coming up for you right now, and not earlier. That is what you receive in the full Personal Map, together with the seven-year cycle you are in right now and the energy of your personal year.
