How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is 1 + 6 = 7, and for the 25th it is 2 + 5 = 7. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

Women born on the **9th, 18th or 27th** of the month have soul number **9**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, what gives you strength and what depletes you fastest when things are hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body you rely on most, and which one is the first to give you a signal when things become too much.

Numbers and bodies

1	Soul Body	7	Auric Body
2	Negative Mind	8	Pranic Body
3	Positive Mind	**9**	**Subtle Body**
4	Neutral Mind	10	Radiant Body
5	Physical Body	11	Eleventh Body
6	Arcline		

The five numbers of your date of birth

The soul number is the first of five numbers hidden in your date of birth. The others show what you carry as a lesson, what comes easily to you, what you are moving toward and along which path.

YOUR SOUL NUMBER

9 · Subtle Body

Do you notice details that others do not see? A change in a friend's voice, a look that lasted a second too long, a pattern that repeats in your relationships? Do you feel the beauty in small things, in the light through a window, in a well-written sentence? That is your Subtle Body.

In Kundalini Yoga the ninth body is the Subtle Body. It notices small things and senses when it is time to say or do something. With patience, what you have lived through slowly becomes knowledge you can rely on. When the Subtle Body is strong, you are calm and patient, and what you do comes easily to you. When it is depleted, you want results right away and find it hard to stay with one thing. Nine is the number of mastery, and the key of this number is mastery or mystery: when you stay with something long enough, you master it completely, and when you give up early, it remains a mystery.

YOUR QUALITIES

You read people and situations well. You quickly understand what is really going on and hear what someone means, even when they do not say it directly. In a conversation you are often the one who says: wait, this keeps repeating, and suddenly everyone sees where the problem is.

When you give yourself enough time with something, a craft, a skill or a relationship, you become really good at it, and people notice. You also have a good sense of the right moment, when to say something and when to wait.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

The biggest challenge of this number is to stay with one thing, even when it becomes boring or hard.

When the Subtle Body is depleted, you start something new with enthusiasm, and as soon as it becomes hard or boring, you want to move on to the next thing. When things do not move quickly, you are easily disappointed, and in the end you have many unfinished stories. And sometimes you trust people before you really get to know them, so later you are surprised by who they actually are.

How to recognize your Subtle Body

WHEN IT IS STRONG

- You are learning to play the guitar or to sew, and you keep practicing even when you do not see progress.
- You notice that a friend is sad, even though she writes that everything is fine.
- In a meeting you wait for others to say their part, then share your opinion, and everyone listens.
- You get to know a new person slowly and let them close only once you see who they are.

WHEN IT IS DEPLETED

- You buy a book, a course or workout gear, and two weeks later it all sits in the cupboard.
- If you do not see huge results after a month, you give up, even though you would love to learn it.
- You let someone close after two meetings, and later you are disappointed.
- At work you keep thinking that somewhere else would be better.

ONE PART OF YOU

This is one important part of you

Your soul number shows your relationship with yourself. But it is only one of the five numbers in your date of birth, and it leaves some questions open:

> *Why do you read people so well, and still feel disappointed by those you trusted too quickly?*
>
> *Why do you see potential in every new thing, yet so rarely stay long enough to make it real?*
>
> *Why is a certain theme coming up for you right now, and not earlier?*

PERSONAL MAP

How your parts work together

One number can explain one part of you. But the most interesting part begins when you see how your numbers fit together: where one strength supports you, where another creates tension, and why certain themes are coming up for you right now, and not earlier. That is what you receive in the full Personal Map, together with the seven-year cycle you are in right now and the energy of your personal year.
