Pranic Body

KEY: FROM FINITE TO INFINITE

How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is $1 + 6 = 7$, and for the 25th it is $2 + 5 = 7$. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

Women born on the **8th, 17th or 26th** of the month have soul number **8**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, where you draw strength from when no one is watching, and where you most easily lose yourself when things get hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body is your inner home, the place you return to when you have lost your way.

Numbers and bodies

1 Soul Body	7 Auric Body
2 Negative Mind	8 Pranic Body
3 Positive Mind	9 Subtle Body
4 Neutral Mind	10 Radiant Body
5 Physical Body	11 Eleventh Body
6 Arcline	

Besides the soul number, your date of birth carries four more numbers: the karma number, the gift number, the destiny number and the path number. Each of them carries the energy of one of these bodies.

8 · Pranic Body

Do you set off the moment you decide something? Do you have energy for three people, and then suddenly need a whole day to recover? Do you not quite feel like yourself in the morning before the first coffee? All of these are stories about your Pranic Body.

In Kundalini Yoga the eighth body is the Pranic Body, the body of the life force we take in with the breath. Prana is the energy that moves everything in you, from your thoughts to your steps, and every breath renews it. Eight is the number of fearlessness and vitality. When the Pranic Body is strong, you have the strength, courage and will to get yourself and others moving. When it is tired, your energy goes up and down, and you reach for something outside yourself to keep going. The key of this number is from finite to infinite: through the breath you are connected to something much bigger than yourself, and from there comes a strength that does not depend on circumstances.

YOUR QUALITIES

You have the strength to get yourself and others moving. When something has to be done, you are the first to roll up your sleeves. Your energy is contagious, and many people feel more alive and braver around you.

You also have a natural capacity to recover. After hard periods and disappointments you get back on your feet faster than others expect, and in a crisis you stay brave while others panic.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

You spend energy faster than you renew it. You start the day at full speed and go from task to task, and then in the evening, or after a few weeks, you run out of strength. That is when you reach for something outside to keep you going: another coffee, something sweet, scrolling.

Sometimes there is worry behind the need to keep everything under control, because when you hold everything in your hands, nothing can surprise you. That control was once a way to cope when there was too much uncertainty around you. Today it uses up exactly the energy that is most precious to you.

IN YOUR RELATIONSHIPS

In relationships it is easy for you to take on everything, the plans, the decisions, even other people's worries. That way nothing can surprise you, but it wears you out. Your lesson is trust: to let others carry their part.

THE LESSON ASKING TO BE LEARNED

Your lesson is the breath. Conscious, deep breathing a few times a day changes your state faster than almost anything else. And you are learning to renew yourself before you run out of strength.

One small thing for tomorrow

Three breath reminders

Tomorrow, set three reminders on your phone: morning, noon and afternoon. When they ring, breathe in slowly through your nose and breathe out longer than you breathed in, five times in a row. One minute, and you are back with yourself before your energy drops.
