Soul Body

KEY: HEART BEFORE HEAD

How your soul number is calculated

In Tantric Numerology from Kundalini Yoga, your date of birth is read like a map. It gives five numbers, and the first and most personal of them is the soul number.

Your soul number comes from the day of the month you were born. If it is a single digit, that is already your soul number. If it has two digits, you add them together. For a birthday on the 16th that is $1 + 6 = 7$, and for the 25th it is $2 + 5 = 7$. In this system 10 and 11 are not reduced any further, because each of them stands for a body of its own.

Women born on the **1st** of the month have soul number **1**.

What the soul number shows

The soul number speaks about your relationship with yourself: what moves you from the inside, where you draw strength from when no one is watching, and where you most easily lose yourself when things get hard.

Kundalini Yoga teaches that we are made of ten bodies, ten layers of our being that together form a whole. Each number from 1 to 11 corresponds to one of them. Your soul number shows which body is your inner home, the place you return to when you have lost your way.

Numbers and bodies

1 Soul Body	7 Auric Body
2 Negative Mind	8 Pranic Body
3 Positive Mind	9 Subtle Body
4 Neutral Mind	10 Radiant Body
5 Physical Body	11 Eleventh Body
6 Arcline	

Besides the soul number, your date of birth carries four more numbers: the karma number, the gift number, the destiny number and the path number. Each of them carries the energy of one of these bodies.

1 · Soul Body

Do you ever know something before you can explain why? You walk into an apartment that looks perfect on paper and feel straight away that it is not for you. You meet someone and within a few minutes you know you will understand each other. That quiet feeling that arrives before the thought is the voice of your soul.

In Kundalini Yoga the first body is the Soul Body, the deepest and quietest part of you. It is where the sense of what truly matters comes from, what is yours and what is not. When you are connected to it, decisions come more easily, simple things bring you joy and you feel that you are living your own life. When you drift away from it, the head takes over, so you think a lot and feel little. The key of this number is heart before head: when you let the heart speak first, the head has a much easier job.

YOUR QUALITIES

Your intuition is your compass. You often sense the right direction before reason can confirm it, and when you follow it, things tend to fall into place in a way that feels right.

You also have a gift for honesty. People around you sense that there is no pretending with you, so they open up more easily. When you speak from the heart, your words reach people more than any perfect explanation could.

WHERE YOUR CHALLENGES AND DIFFICULTIES LIE

You know that moment at night when you lie awake turning the same decision over for the hundredth time? You make lists of pros and cons, ask your friends, read up on it, and somewhere deep down you already know the answer. You just do not trust it yet, because you cannot prove it.

This pattern is usually learned. Somewhere along the way you learned that a feeling is not a good enough reason. When you do not listen to yourself for a long time, a quiet sense that something is missing can appear, even when everything looks fine from the outside. That is simply an invitation to come back to yourself.

IN YOUR RELATIONSHIPS

In relationships it is easy for you to adapt and go along with the plan or opinion that suits everyone else, just to keep the peace. Later you wonder where you are in all of it. Your voice is welcome, and the people who truly care about you want to hear it.

THE LESSON ASKING TO BE LEARNED

Your lesson is to trust your heart. Start small. What will you eat, which way will you walk? Notice how often your first feeling tells you exactly what you need.

One small thing for tomorrow

One decision from the heart

Tomorrow, pick one small decision, what to wear, what to have for lunch or which way to walk, and make it in three seconds, on your first feeling. In the evening, notice how it went. It will feel almost too simple. Do it anyway.
